

# eCopy Alliance

## SUMMARY

### The eCopy and RightFax Integration Makes Network Faxing from Canon Copiers and Desktops Possible

The RightFax and eCopy solution allows users to scan and fax documents from their digital copier at speeds from 20 to 50 pages per minute, dramatically decreasing time spent faxing. Additionally, the partnership will link users seamlessly to their document management systems such as iManage and Open Text Livelink, enabling faxes to be saved directly into electronic workflow environments

#### **CAPTARIS AND ECOPY**

With the eCopy Suite and the Captaris RightFax fax server, you can instantaneously fax paper documents directly from your Canon imageRUNNER.

The eCopy Suite and Captaris RightFax offers a robust network fax server solution. By using a Canon imageRUNNER digital copier as the gateway for paper-based document delivery, faxing scanned documents has been made even easier.

The RightFax product line provides the most complete, seamlessly integrated scalable solutions for all of a company's enterprise-wide e-document delivery needs. Solutions include network fax, production fax, email integration, EDI-to-fax, IP messaging, and global engineering and support services. RightFax seamlessly integrates with business applications and provides modular options that allow companies to tailor their document their business. Scalable and easy to manage, RightFax e-document delivery systems help companies reduce costs, improve user productivity and enhance internal and external communications every day.

#### **ECOPY OVERVIEW**

eCopy, Inc. is a market leader in providing products that allow anyone in an organization to transform paper documents into information that is easily integrated with leading business applications. The eCopy suite of products seamlessly connects a digital copier to an organization's email (like Microsoft Exchange or Lotus Notes) and other networked enterprise applications. Targeted for general business use in the Global 2,500, over one million users worldwide send eCopies rather than faxes and overnight letters.
